

## Parent and Student Portal

The ESD .NET 2.0 Parent / Student Portal presents information regarding grades, assignments, attendance and more, in a secure and easy to understand environment. The Parent / Student Portal facilitates communication between students, parents and teachers. The portal is full integrated with the ESD Student Information System and GradeBook and provides real-time information without the need for nightly data transfers. The information flows seamlessly to the portal. Parents can create their own user name and password and link to all of their students by identifying unique information such as social security number, student ID, birth date and/or family ID. The system utilizes SSL and encryption to maintain a secure browsing environment.
